## Teachers!

**Your students can prepare for CSAP tests, practice writing and editing, use their artistic skills, have an opportunity to see their work in print and . . . maybe win some cash!**

There's something for every student in **The Classroom Chieftain**, a special section written entirely by students, which runs in *The Pueblo Chieftain* on May 7. Students in grades K-2 use descriptive writing (plus a little artwork) to write about their favorite food. Students in grades 3-5 and 6-8 practice expository and narrative writing; high school students compete in persuasive writing. Lessons in the Chieftain provide topics and take students through the writing process.

The Design an Ad Contest gives students a working world experience when they create an advertisement for a real business. The Cover Design and Cartooning Contests will appeal to the artists in your class.

It's motivating to draw and write for a real audience of readers in 50,000 households across Southern Colorado. You can provide this unique opportunity for your students by checking **The Classroom Chieftain** box on the other side of this form. We will send everything you need to enter this exciting contest.

Great  
for CSAP  
prep!
